

INSTRUCTIONS for AUTHORS

Types of manuscripts are – Review, Article and Letter. All manuscripts are printed on A4 paper by 1,5 line spacing. Margins from top, bottom, right and left are – 2.5 cm. It is desirable the presentation of manuscript electronically (MS Word). The used fonts of manuscript's Georgian version are – Litnux, Acadnux, and English version – Times New Roman (font size is 12). The limitation for the review volume is 10 pages, for article – 7 pages, and for letter – 2 pages.

STRUCTURE

Title:

Title is located on the top of first page (font – size 14, **Bold**); Author names and initials are following on next line (font – size 12, *Italic*; qualification is not necessary); the institution name, address, phone, e-mail (font – size 12). If authors are presenting different institutions, they are numbering and institution list is given accordingly.

Abstract:

followed the title (abstract volume does not exceed 250 words, font size – 12). It briefly describes the manuscript topic, materials and methods, obtained results, discussion and conclusions. Besides, the title short version is necessary (e.g., D.Virsaladze et al., Molecular Mechanisms of Insulin Resistance..., font size - 10) and followed the abstract. The number of symbols of short title does not exceed 70.

Keywords:

followed the abstract. This number is 3-5 (font size - 12).

Abbreviations:

followed the keywords, are listed according mention (font size - 12).

Introduction:

consists of the problem description, goals and novelty of investigation. It does not consist neither obtained results nor conclusions (font size – 12).

Materials and Methods:

consist of information about investigated subjects (animals and humans) and used methods. The description of nonstandard method is necessary (font size – 12).

Results:

are presented without interpretation. The desirable places for tables, diagrams and figures are indicated by pencil (font size – 12).

Discussion:

consists of the discussion and relation of obtained results with according ones from scientific publications (font size – 12).

Conclusions:

are numbered (font size – 12).

References:

in the manuscript text are given by square brackets (e.g., [1]), numbering according mention. The list of references is presented at the end of manuscript text (font size – 12) and consists of following items: author's name and initials, title, title of journal/book/conference (in case of book/conference publisher/place and publishing/held date is added), volume, issue, page numbers. If the number of authors exceeds 4, it is only mentioned the name and initials of first author and et al., e.g.,

1. Knudsen P. et. al. Changes of Lipolitic Enzymes Cluster with Insulin Resistance Syndrome. Diabetologia, 1995, v.38, No.3, p.344-350.
2. e. Tofurize, r. RvamiCava, m. bulia, m. ugulava. simsuqnis profil aqtika mozardebSi kvebis racional izaciiT da qarTuli nacional uri kvebis CarTviT. saqarTvel os samedicino moambe, #5-6, 1998, gv. 15-19.

In case of review all references are new and non less than 15.

Tables, Diagrams, Figures:

each are presented on separate sheet. Authors are responsible on publishing charges of colour illustrations.

Note:

- Review - consists of title, abstract, references; other parts at discretion of author(s);
- Article - consists of all parts;
- Letter - consists of title; other parts at discretion of author(s);

Fill in the submission form and send us with manuscript.

Submission Form

Type of manuscript:

- Review
- Article
- Letter

Topic:

- Epidemiology and Clinical Medicine
- Etiology and Pathophysiology
- Metabolism
- New Technologies
- Case Histories
- Postgraduate Education
- Letters
